

Color Pour Puzzle — Gameplay System Design

Core Gameplay Layout

Tube Setup Per Level

- Total Tubes: 8
- Tube Capacity: 4 color blocks/liquid units
- Tube Arrangement:
 - 4 tubes on top row
 - 4 tubes on bottom row

Initial Tube State

- 5 tubes contain mixed colors
 - 2 tubes are empty for gameplay movement
 - 1 tube is locked
-

Locked Tube System

Unlock Methods

Players can unlock the locked tube using:

Option 1 — Coins

- Spend coins to unlock

Option 2 — Rewarded Ad

- Watch ad to unlock instantly

Purpose

- Adds challenge
 - Increases strategic gameplay
 - Creates monetization opportunity
-

Tube Rules

Pour Rules

A player can pour only if:

1. Destination tube is empty OR
2. Top color of destination tube matches pouring color

AND

1. Destination tube has space available

Invalid Move

- Different color on top
 - Destination tube full
 - Same tube selected
-

Win Condition

Player wins when:

- Every non-empty tube contains only one color
 - All colors are perfectly sorted
-

Gameplay Features

Undo System

Default Undo Count

- Player starts with 5 undo chances

Undo Rule

- Only the LAST move can be undone

How To Get More Undo

Option 1 — Coins

Purchase extra undo

Option 2 — Rewarded Ads

Watch ad for undo

Option 3 — Rewards

Player earns undo from:

- Hard levels
- Daily rewards

Hard Level Reward

- +1 Undo reward
-

Restart System

Restart Level

- Restarting consumes 1 life

Purpose

- Adds gameplay value to hearts/lives
 - Prevents unlimited retries
-

Life System

Default Lives

- Player starts with 5 lives

Lives Used For

- Restarting a level

Recovery Options

Can later include:

- 100 Coins
 - +1 Undo
-

Difficulty Structure

Level Sets

Every 5 levels form one difficulty cycle:

Level	Difficulty
1	Easy
2	Easy
3	Medium
4	Medium
5	Hard

Then repeats:

- 6–10
 - 11–15
 - 16–20 etc.
-

First Release Plan

Total Levels

- 100 Levels

Difficulty Distribution

Easy

- Simpler color combinations
- More free spaces
- Fewer move traps

Medium

- More mixed colors
- Requires planning

Hard

- Tough arrangements
 - Locked tube becomes important
 - Higher move complexity
-

Daily Reward System

Weekly Rewards

Players receive rewards for logging in.

Important Rewards

- Day 3 → Undo Reward
- Day 7 → Undo Reward

- Coins
 - Lives
-

Suggested Gameplay UI

Top HUD

- Profile Icon
- Coin Count
- Heart Count
- Settings Button

Gameplay HUD

- Level Text
- Undo Button
- Restart Button
- Locked Tube Unlock Button

Bottom Area

- Tube Gameplay Area
-

Development Order (Recommended)

Phase 1 — Core Gameplay

1. Tube system
2. Pour mechanic
3. Color logic
4. Win detection

Phase 2 — Gameplay Features

1. Undo system
2. Restart system
3. Locked tube system

Phase 3 — Progression

1. Level manager
2. Difficulty setup
3. Coin rewards

Phase 4 — Economy

1. Lives system
2. Daily rewards
3. Rewarded ads

Phase 5 — Polish

1. Animations
 2. Sound effects
 3. Particle effects
 4. UI polish
-

Recommended Next Step

Build the gameplay foundation first:

1. Create tube prefab
2. Add color stack system
3. Implement tap and pour logic
4. Add simple color visuals
5. Add win checking
